

# GAZ-SYSTEM data exchange

Gas Transmission Operator GAZ-SYSTEM S.A.

Brussels, 16 May 2017

## GSA Platform

## Interactive, integrated and document based data exchange in numbers

---

### **Interactive:**

- **GSA Platform** - 59 Shippers (230 user accounts, more than 150,000 auctions concluded, 17 IPs)
- **IES (Information Exchange System – Customer Care System)** – more than 160 Shippers (more than 2500 user accounts)

### **Integrated:**

- **Sharing measurement data** - available connection through AS4
- **IES universal interface** – almost 20 active SOAP/WS connections
- **ENTSOG Transparency Platform** – AS2 connection
- **REMIT** – reporting to ACER (SOAP/WS connection)

### **Document based:**

- **Capacity trading process (GSA Platform)** - TSOs connected through AS2 with edig@s 5.1 messages, AS4 communication is under preparation
- **Nomination and Matching process** – 28 active production AS2/AS4 connections with edig@s 4.0/5.1 messages (10 AS4 connections and 18 AS2 connections), next AS4 connections in progress

## ENTSOG informs about the first demand assessment for Incremental Capacity in 2017

ENTSOG would like to emphasize that the first market demand assessment for Incremental capacity will not be initiated by an annual yearly auction on 6 March 2017.
